

Good Things are Happening at Northgate!

YOU ASKED FOR IT. WE HEARD YOU!

In the Northgate Area Comprehensive Plan, the community asked for an efficient transportation system, enhanced transit service, improved pedestrian circulation, and a high capacity transit system.

*Policies 6, 7 & 8

WHAT'S HAPPENING...

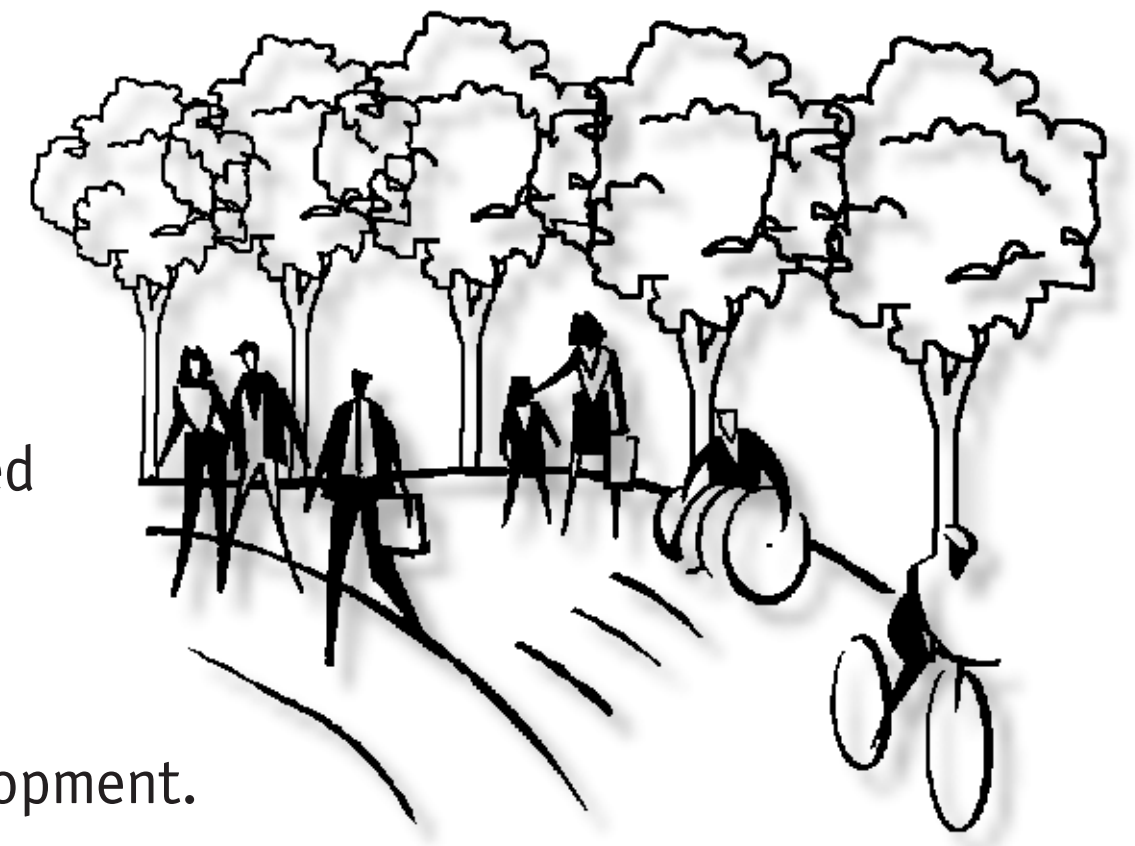

With new technology, better connections and new modes of transportation, Northgate will become a modern transportation center.

- King County Metro will develop a new major transit center with innovative transit oriented development on the south lot of Northgate Mall along I-5.
- Both Sound Transit and the Monorail are envisioned to arrive at Northgate.
- The City will focus on comprehensive, coordinated transportation solutions for new development.
- Pedestrians and cars will have better connections between neighborhoods and key destinations.
- A 5th Avenue Streetscape project will focus on pedestrians and improve the area's aesthetics, with wider sidewalks and more trees.

By improving the Avenue's aesthetics and surrounding environment, this project will change 5th Ave. NE, Between NE 100th St. and Northgate Way, from an arterial with an emphasis on cars, to a pedestrian-friendly corridor. The project will widen sidewalks, add street trees, clearly define street crossings, relocate two bus stops and improve shelters. These improvements will increase opportunities for pedestrian movement between the community and key destinations, such as the new library and community center.

NEXT STEPS AND PUBLIC INVOLVEMENT OPPORTUNITIES
